ADDITIONAL INFORMATION

After graduating from the Slovak Agricultural University in Nitra, I took up the opportunity to travel to the USA, where I spent four months working and exploring country. Upon returning to Slovakia, I secured my first permanent position in Nitra at a newly established staffing agency. Over the course of more than eight years, I progressed through multiple roles — from consultant to HR manager. During this time, I actively contributed to the company's transformation from a locally unknown brand into one of the largest personnel agencies in Slovakia. I am currently seeking a new professional challenge where I can continue to grow while contributing on the company's growth.
